

IACCP 2022 Abstract Submission Guidelines

Symposia: 60 minute video-recording + 25 minute live online discussion

A symposium allows a group of speakers to introduce different perspectives and research around a shared theme in a combined 60-minute video, and then meet and interact with interested attendees in a live online Discussion during the Congress. The symposium Chair is encouraged to invite presenters from different institutions, and preferably from different regions / nations.

The format of a 60-minute symposium video-recording usually consists of a brief introduction by the Chair, followed by 3 to 5 speaker presentations. The Chair can also be one of the paper presenters. The symposium may optionally end with an overview of the symposium by the Chair or a Discussant. The 60-minute video-recording must be provided and uploaded to the IACCP 2022 Abstract account (Chair's dashboard) no later than June 20, 2022. This recording will be made available online by July 1 (about 1.5 weeks before the Congress) for all registered participants. During the Congress, the Symposium members and interested audience members will additionally engage in a 25-minute live discussion session, moderated by the symposium Chair.

The Chair is responsible for submitting the whole symposium through the IACCP 2022 abstract submission system, and for being the corresponding author for this symposium. The Chair of an accepted symposium is also responsible for submitting the completed video-recording (technical assistance will be available if needed), and ensuring that all the symposium presenters are registered by the presenters' registration deadline of April 15, 2022.

Symposium Submission Structure:

Thematic Streams: Please choose one of the thematic streams.

Preferred Mode of Presentation: Please select "Symposium."

Title of Symposium: Please choose a brief title (maximum of 100 characters) that clearly indicates the content of the contribution. Please avoid abbreviations in the title.

Brief Content Description: (to appear in online and mobile version of the IACCP 2022 Programme): Please ensure that your brief description of the Symposium contains no more than 250 characters, including spaces.

Symposium Abstract: Please ensure that your abstract contains no more than 300 words. Please avoid diagrams, illustrations, tables, references or graphics in the abstract. Provide maximum relevant information in the abstract.

Chair: Names, highest educational degree obtained, email address, phone number, complete mailing address, affiliated institution, and institution country and city.

Presentations (3-5):

Participant (Speaker/First author): Names, highest educational degree obtained, email address, country, affiliated institution, and institution country and city.

Title of the Presentation: Please choose a brief title (maximum of 100 characters, including spaces) that clearly indicates the content of the contribution. Please avoid abbreviations in the title.

Abstract of the Presentation: Please ensure that each abstract contains no more than 300 words. Please avoid diagrams, illustrations, tables, references or graphics in the abstract. Provide maximum relevant information in the abstract. If the subject matter is empirical, the following structure is obligatory: The objective, methods, results, and conclusions.

Co-Authors: Only Names and Institutional Affiliations are required.

Keywords: Please indicate up to 3 keywords for your symposium abstract.

Discussant(s) (optional) (up to 3): Names, highest educational degree obtained, email address, country, affiliated institution, and institution country and city.
