IACCP 2022 Abstract Submission Guidelines

Oral Presentation: 15 minute video-recording + 25 minute live online group discussion

Oral Presentations allow presenters to present their findings in a 15-minute talk, and meet and interact with assigned groupmates and interested attendees in a live online Group Discussion.

Abstracts accepted as Oral Presentations for IACCP 2022 will be grouped together by the thematic stream. The First Author/Presenter of the accepted abstract must provide and upload a 15 minute video-recording of the presentation to the IACCP 2022 Abstract account (author's dashboard) no later than June 20, 2022. This recording will be made available online by July 1 (about 1.5 weeks before the Congress) for all registered participants. During the Congress, 3-6 presentations will be grouped together by thematic stream, a moderator will be assigned, and presenters will take part in a live Group Discussion for 25 minutes. The best effort will be exercised to create groups of presentations in order to promote connections among the presenters and their audience and to facilitate meaningful discussion. Oral presentation submissions may also be considered for poster presentations.

Oral Presentation Submission Structure:

First author/ Presenter: Name, email address, highest educational degree obtained, affiliated institution, institution country and city, complete mailing address, and telephone number. NOTE: In instances of multiple authorship, the first author is expected to be the presenter in the video and Group Discussion.

Co-authors: Names, email address, highest educational degree obtained, country, affiliated institution, and institution country and city.

Preferred Mode of Presentation: Please select "Oral presentation."

Thematic Streams: Please choose one of the thematic streams.

Title of presentation: Please choose a brief title (maximum of 100 characters, including spaces) that clearly indicates the content of the contribution. Please avoid abbreviations in the title.

Abstract: Please ensure that your abstract contains no more than 300 words. Please avoid diagrams, illustrations, tables, references or graphics in the abstract. Provide maximum relevant information in the abstract. If the subject matter is empirical, the following structure is obligatory: The objective, methods, results, and conclusions.

Keywords: Please indicate up to 3 keywords for your abstract.
